

NOTE (Some contextual points)

DIET Nathdwara

— Principal was not much aware of 12th plan / CSSTF & couldn't share salient features

— They shared that funds was not a (faculty) problem as DMDC is in place but there is no intention to use funds in the right direction. eg- water purifier was also not being repaired.

— As per few faculty member., Principals in DIET are appointed, usually by selecting those who have just one year left in their retirement. Hence, here in Nathdwara principal was not regular & hence has no information about 12th plan / funds flow.

Few contradicting points - CDIET)

1) Librarian shared we have school textbooks, but students shared they have only eight class textbook & rest they procure themselves.

2) Any TLM to be prepared, students buy material & prepare it. No help from institute. There are no TLMs available to share / use in the institute

3) Knowledge of policy documents especially NCFTE-2009 was not present.
